

PONNAM SATHWIK GOUD

Full Stack Development Enthusiast | Computer Science Student

 goudsathwik59@gmail.com  <https://www.linkedin.com/in/ponnam-sathwik-286687300/>  Warangal

SUMMARY

Motivated Computer Science student with strong skills in JavaScript, Python, and full-stack development concepts, including frontend and backend programming. Completed projects such as an AI chat bot application leveraging React, Node.js, Python, SQLAlchemy, and in-memory task management. Undergoing a B.Tech in Computer Science at SR University, with a specialization in AI/ML. Proficient in Python, JavaScript, and various frameworks, and building practical, user-focused software solutions with a clear, impact-driven and result-oriented approach. Passionate about pursuing a B.Tech in Computer Science at SR University, with graduation.

EDUCATION

B.Tech in Computer Science and Engineering

SR University

 08/2023 - 05/2027

Intermediate

SR JUNIOR COLLEGE

 08/2021 - 03/2023

LANGUAGES

English

Advanced

Telugu

Native

Hindi

Proficient

CERTIFICATIONS

Complete Full Stack Web Development Bootcamp – AI

Udemy

SKILLS

Programming Languages:

Python, Javascript

Frontend Development:

HTML, CSS, React

Backend Development:

Node.js, REST APIs

Database:

MongoDB

Version Control & Tools:

GIT, GitHub

PROJECTS

GenZ AI Chat Bot (Full Stack Application)

 09/2023 -  02/2024

- Build a full stack AI chatbot using React, Node.js, and Express,
- Integrated OpenAI APIs and MongoDB for chat interaction history.
- Designed a responsive frontend following a client-server architecture.

Tech Stack: React, Node.js, Express, MongoDB.

- This project is a successful outcome of your hard work and dedication to learning new skills, and showcases your ability to build real-world applications. Introducing new features to the application from career goals.

Task Manager Application

 07/2023 -  09/2023

Direct summary of your work

- Build a full-stack task management application with React, Node.js, and Express,
- Implemented React, Node.js, Express, and API endpoints for user registration, task management.
- Build a simple Todo app using React, Node.js, Express, frontend: React, Node.js, Express, HTML, CSS, Git, Git.
